## Telescoping Wire Puller w/Nylon Bag

**100410 Price: \$163.80**

- **Telescoping design fully extends to 14'**
- **Only 17.5" long when retracted.**
- **Unique tip design will both pull and push the wire & cable.**
- **Glow tip for working in dark areas.**

The Datapole is a high quality wire pulling/pushing tool designed for the professional installer. Light-weight and compact, easily travels to the job site and allows you to move wire through the smallest access holes quickly and efficiently. Retracts to 17.5" making it easy to go up & down a ladder and reach into tight places. Fiberglass material provides insulation protecting from live circuits and potential shorts. Super light weight & balanced. Made in Japan.
